## OCSO HUB ONLINE

9/30/2025

### HUB UPDATE DROPS TODAY

All workstations will be required to update the Hub today when the new version is released. When you get a prompt that your Hub is out of date, click OK. It should automatically start the updater batch file. Let it run through; it will update your Hub to the latest version.

### GUN RANGE UPDATE

Users will no longer be making gun range appointments with the Hub 64 Thick Client (the desktop application). For making gun range appointments, visit the OCSO-Hub Online at [ocsohub.com](http://ocsohub.com) with a smart phone, tablet, MDC or computer (personal or county-issued devices) and click GUN RANGE. Note that the OCSO-Hub Online will NOT be live until October 1<sup>st</sup> (tomorrow). Users experiencing issues should contact Hub Admin Jason Tucker at 248.858.2909, or email [tuckerj@oakgov.com](mailto:tuckerj@oakgov.com).
