**UD-10 PLATE ENTRY**

**2/10/2025**

**Information:** The MSP Crash Reporting Unit and CLEMIS have put out new guidelines when entering plates in a crash report.

**Action Required:** If a vehicle has no plate or an unknown plate, use 'UK' for the State Code. Type 'None' in the Vehicle Registration box where the plate number would usually go.

If it is a federal vehicle with no plate (like a post office truck), use 'US' for the two-digit State Code. Type 'None' in the Vehicle Registration box where the plate number would usually go.

If the plate has been removed by the driver but there is a plate attached to the SOS record, use the plate number, NOT 'UK.'

If there is an improper plate on the vehicle, use the corresponding state code and type 'None' in the Vehicle Registration box where the plate number would usually go.

**Contact:** Please contact Deputy Jerry Yaldoo ([yaldooj@oakgov.com](mailto:yaldooj@oakgov.com) or 248-595-4729) if there are any questions.
