

OAKLAND COUNTY SHERIFF'S OFFICE TRAINING BULLETIN

1/29/2024

Supervisory TASER CEW Use Report

Effective immediately, OCSO personnel are no longer required to complete the Supervisory TASER CEW Use Report form provided by AXON.

Updated Reporting Procedure:

- All TASER deployments, **including displays**, must continue to be documented in the LEFTA Shield Suite (FACTS module) as part of the Response to Resistance report.
- All Response to Resistance incidents must be reported within the FACTS module.
- If a TASER is used, the TASER section **must be added** to the report.
- All personnel are required to complete the entire TASER section to ensure proper data collection, replacing the need for the Supervisory TASER CEW Use Report. Command personnel will verify when reviewing reports.

By accurately documenting TASER deployments in LEFTA, the Supervisory TASER CEW Use Report is no longer necessary.

For any questions or clarification, please contact Lt. Workman at workmanp@oakgov.com.
